RIPPER TINE

This ripper cultivator has either 3 or 5 heavy duty tines.

Suitable for ripping up fresh ground as well as levelling rutted areas and normal cultivation work. The depth of penetration is controlled by the adjustable leg height and three point linkage.

The ripper cultivator is suitable for most small tractors.

Width 1.2m for the 3 legged ripper tine and 1.5m for the 5 legged ripper tine.

Adjustable leg height with replaceable tips.
