

SIROMER

HYDRAULIC BACK BOX

Tip, scrape, and shift – all in one box.

Built for serious shifting, Siromer's Hydraulic Tipping Back Box is ideal for transporting, unloading, and levelling loose materials like soil, stone, or sand. The clever no-door design and 92° tipping angle make emptying smooth and effortless, while reinforced components ensure strength where it matters most.

FEATURES:

- 92° hydraulic tilt for easy unloading
- No rear door – smooth, self-emptying design
- Heavy-duty double-acting hydraulic ram
- Reinforced floor and nose plate
- Structural box section hitch with reinforced joints
- Scraping blade on heel – ideal for levelling and grading
- Smooth, rounded edges for easier cleaning

Model	Weight	Width	Capacity	Power Required
T141	190kg	1.3m	0.4 cu	25-50 hp
T151	210kg	1.5m	0.5 cu	35-75 hp
