

SIROMER

BALER

Compact. Capable. Built to bale anything.

Tough, reliable, and easy to use, the Siromer Round Baler is perfect for baling hay, straw, haylage, silage—even vine cuttings. With its own built-in hydraulic pump, there's no need for spool valves—just hitch up and go. Designed for tractors from 24–40hp, it's ideal for small farms and first-time users alike.

FEATURES:

- Bales hay, straw, haylage, silage & vine cuttings
- Built-in hydraulic pump – no spool valve required
- Audible signal when bale is ready
- Adjustable bale weight settings
- Handles wet material (up to 60% moisture)
- Automatic string tying system
- Available with twine or net binding

Everything you need for efficient, no-fuss baling.

Model	Empty Weight	Bale Size	Pick up width	Power Required
P10	440kg	800x700mm	800mm	24-50hp
