

SIROMER

BACKHOES

Dig deep. Stay in control.

Designed for hard work, Siromer Backhoes make light work of digging footings, drainage channels, trenches, or tree planting holes. Each model runs off the PTO and includes an internal hydraulic pump, so they're self-contained and quick to hitch up to your tractor. CAT I or CAT II options available, with optional trenching and grading buckets for heavier jobs.

FEATURES:

- PTO driven with built-in hydraulic pump
- Fits three-point linkage – quick to attach
- Heavy-duty stabilising top link included
- Models B93, B937 & B94 suit CAT I
- Model B95 suits CAT II
- Optional trenching (8") & grading (35") buckets for B937, B94 & B95

Model	Required HP	Weight	Loading Height (A)	Dig Depth (B)	Extend Height (C)	Working Length (D)	Unload Height (mm)	Swing Angle Degrees	Bucket Width (mm)
B93	12-35	250kg	1350	950	2100mm	2300mm	1250	180	290
B937	20-45	500kg	2370	1750	3120mm	2600mm	1800	180	300
B94	20-45	540kg	2420	1950	3170mm	2900mm	2000	180	300
B95	45-75	700kg	2550	2250	3450mm	3300mm	2300	180	400
