LOADER ATTACHMENT

PALLET FORK B810

(Suitable for Siromer Loaders B821, B841, B861, B881)

SCAN TO WATCH — VIDEO —

The B810 pallet forks have adjustable tine width, measure 1m in length and are ideal for carrying pallets up to a maximum weight equal to the lift capacity of the tractors front end loader.

The Siromer Loader Attachment is intended for use within the capabilities of the tractor and with due consideration of the terrain and operating conditions. When operating within the limits of the tractor it is advisable to use rear ballast, either water ballast the wheels or additional weight on the 3 point linkage.

The Pallet Fork attachment is fitted with Euro brackets.

Model	Tine Length	Weight
B810	100cm	100KG
