Your Tractor's Best Friend

SIROMER VERGE FLAIL MOWER

Siromer's verge mower is ideal for cutting verges, orchards, grass and can be used for light hedge maintenance.

Featuring hydraulic offsetting, this robust flail mower can be extended or retracted easily from the tractor.

The mower can be angled to suit the job in hand, from vertical to 60 degrees below horizontal, used for cutting ditches.

The verge mowers' flail hammers, rear roller and a compact size allow the flail mower to be used on smooth lawns, uneven verges and through narrow access.

Model	Size	Working	Weight	Power	Hammers
M54	1.25m	1250mm	250 kg	20-45 hp	20
M55	1.45m	1450mm	271 kg	40-50 hp	24
M58	2.00m	2000mm	650 kg	50-95 hp	20
M59	2.20m	2200mm	685 kg	50-110 hp	20

Dual double acting spool valves are required to power this machine.
